

# Re-Use Conserves Resources/Saves Money

## Go Green

### Things to consider upon move-in:

- ✓ Ask previous tenant or landlord for household items (e.g. freezer, refrigerator, light fixtures, furniture, etc.)
- ✓ Visit the Thrift Store for household items (e.g. transformer, dishes, etc.).
- ✓ Check the Recycling Center for useable items \*

### Disposal of usable packing material:

#### Preferred option:

- ↳ Call your transportation company to pick-up boxes (the transportation company is required to pick-up the empty cardboard boxes by appointment).
- ✓ 2<sup>nd</sup> option: Bring your boxes to the recycling center to avoid overflowing paper containers in your trash area. \*

### Considerations when PCSing:

- Ask the follow-on tenant or landlord if they need some of your furniture.
- Bring useable items to the Thrift Store.
- Bring all recyclables and broken items/furniture to the Recycling Center for disposal. \*
- Check the Recycling Center if they have packaging material (cardboard boxes, bubble wrap, etc.) to pack your household goods. \*

\* Only for customers living on post or leased housing

#### 1. Items still in good condition (re-usable)

For example:
